

Walkway Closures as of 26/11/21 authorised and enforced by City of Edinburgh Council Natural Heritage Service

Sunbury Bridge to Dean Path

The section of the path between Sunbury Bridge and the steps at Dean Path has been closed due to a landslip. Repairs are underway in the meantime, we would like to request that the public respect the closure, use an alternative route and do not put themselves at risk. A signed diversion is in place.

Belford Bridge.

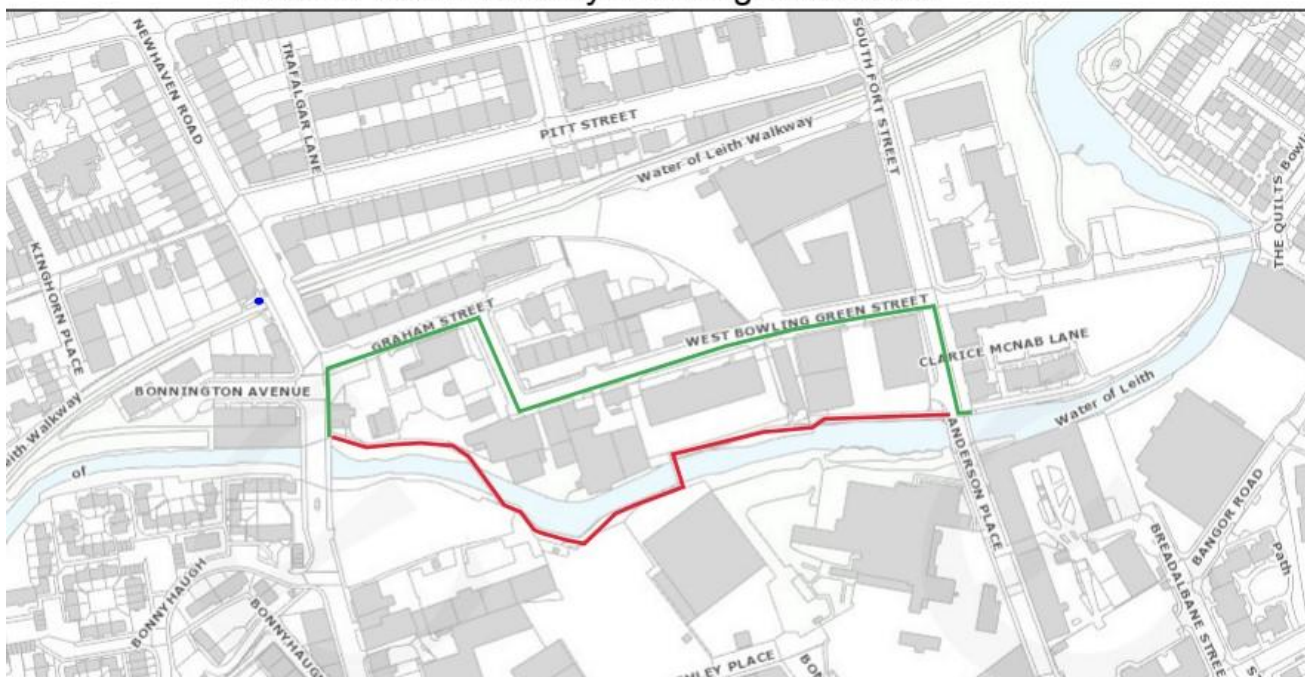

The walkway under Belford bridge has been closed on 04/11/21 due to dangerous railings along the walkway. This links with the above issue. See some suggested routes below

Bonnington.

The Water of Leith Walkway between Newhaven Road and Anderson Place is closed following the deterioration of a retaining wall. For your own safety please respect the closure, use an alternative route, and do not put yourself at risk.

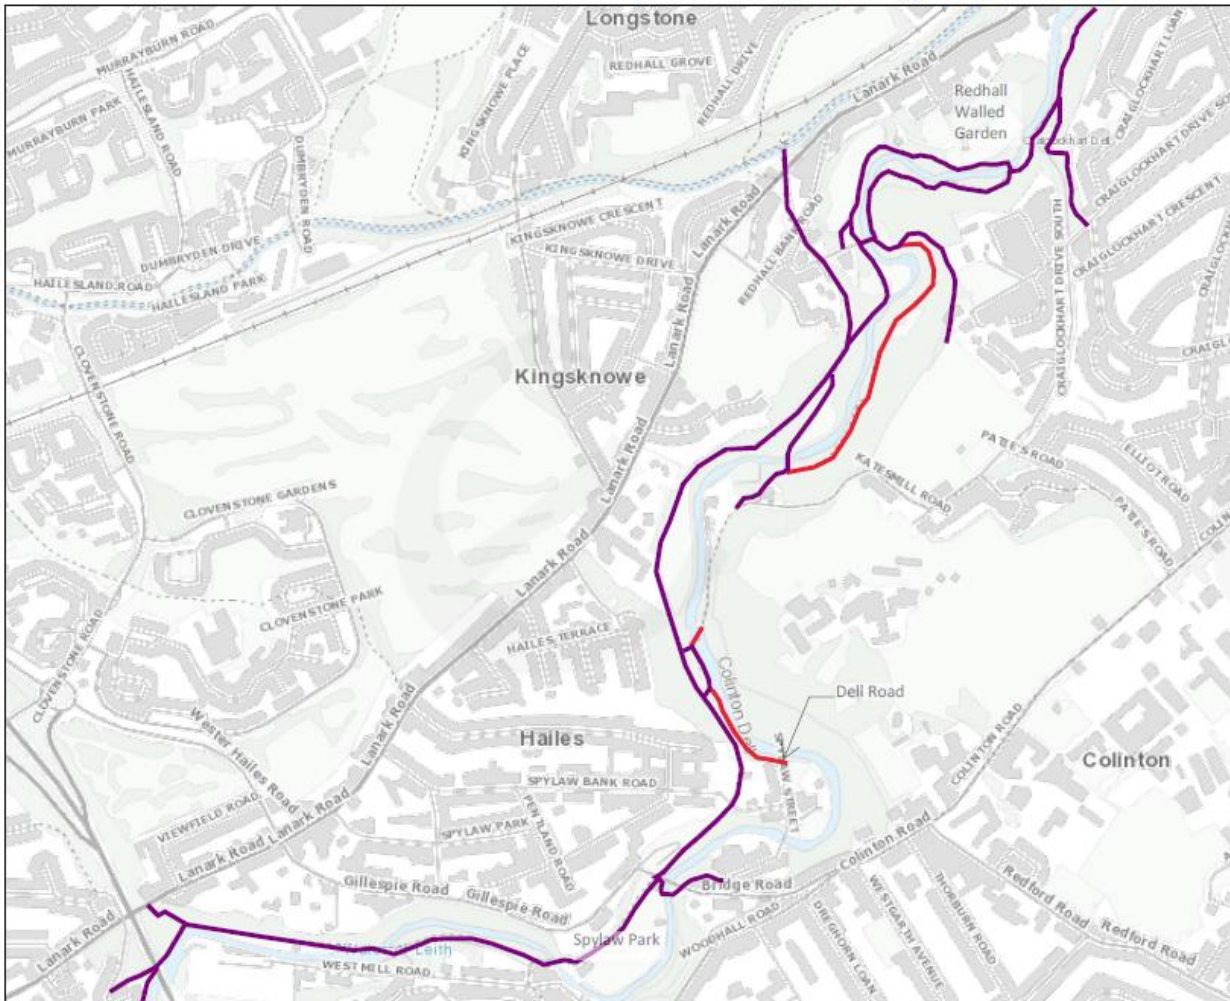

Water of Leith Walkway: Bonnington Closure

Colinton Dell Bridges

In Colinton Dell, there are two closed bridges. We advise walkers heading downstream to remain on the broad path until after Redhall Mill or, if heading upstream of the Visitor Centre, cross the river at Bogs Mill bridge to the north bank and continue along that side.

Colinton and Craiglockhart Dell
